**Get your calves off to
a strong start with
Excell PRO First Feeding Plus!**

Excell PRO First Feeding Plus provides newborn calves with the correct ingredients as provided by mother nature. This formula contains a source of species-specific microencapsulated direct-fed live microorganisms that aid in the reduction of undesirable bacteria in the intestinal tract.

**With IgG Immunoglobulins and
six specific IgY Immunoglobulins**

Cold Calf Starter
Helps provide passive transfer
of critical immune factors.
