HIGHLIGHTS

- Medium-tall plant type with moderate ear placement for height
- Excellent emergence and dependable stalks & roots
- Widely adapted genetics that has performed well east to west
- Medium sized, determinate ear with good grain quality
- Good dual-purpose hybrid due to plant height

PRESCRIPTION PLACEMENT

- Place on medium to medium-high productive soils for top performance
- Medium-high to high plant populations are needed to maximize performance due to somewhat determinate ear type
- Can be used on more productive continuous corn acres where rootworm pressure is low to moderate
